PROJECTS

FilePager-

<https://play.google.com/store/apps/details?id=com.filepager.main>

896 Downloads

4.7 Rating (73 reviewers)

- Designed Architecture to handle multiple TCP connections, allowing users to send and receive files from peers on same network.
- Auto discovering peers using UDP broadcasting.
- Quick file search using FTS SQLite3.
- Decoupled receiving and writing logic
- sending file in chunk of 512kb with chunkid and other metadata in XML and stitching it on client side
- boosting speed upto 60 Mbps (Better than Xender, Software Data cable, Superbeam and share It. :)

Companies Act (India)-
